THE
FOURTH KARNATAKA INDUSTRIAL. HEALTH & AGRICULTURAL EXHIBITION
HUBLI

Organized by THE DISTRICT LOCAL BOARD & RURAL DEVELOPEMENT BOARD, DHARWAR

COTTON SALE SOCIETY

Ref. No. E 625

HUBLI 21st. March. 1949

COINCIDING WITH THIS EXHIBITION WILL BE FIRST KARNATAK INDUSTRIAL CONFERENCE, AND FOURTH DISTRICT AGRICULTURAL CO-OPERATIVE CONFERENCES AND CATTLE SHOW.

The Deputy Secretary,
P.W.D.Government of Bombay.
Bombay.

Dear Sir,

Re:- Concession in current charges.

We had taken energy from the Hubli Electric Supply Co. during the Exhibition period i.e. from the 18th. of February to 3rd. of March. We have received the bill from the Co. charging us at their usual rate of As.8/- per unit. We now request you to kindly aloww us the concession that was allowed to us at the time of the Exhibition held at Hubli in 1946. We were charged then at the rate of As.4/- per unit. We hope you will kindly note that the Exhibition was held for educative purposes and will therefore allow us the concessior asked for.

Thanking you,

We remain,
Yours Faithfully,

H[illegible]RY.
[illegible]AL, HEAL[illegible]

2. This may, first, be referred u.o. to the El. Engr
to Govt. for reporting, with respect to 'A' of the letter

Below U.O.R.No.202/48/19858 dated the 19th April 1949, from Government in the Public Works Department.

LRM11/606

No. of 1949.

Bombay, 26-4 April 1949.

Returned; with compliments.

2. It is true that on the last occasion in 1946, the Exhibition was charged at the rate of 4 annas per unit as a special case, when the cost of fuel oil was about Rs.100/- per ton. The present cost of fuel oil is nearly Rs.140/- per ton, and the cost of generation itself comes to 4½ annas per unit.

3. In this connection, I wish to point out that, according to the Indian Electricity Act, a licensee is not permitted to give preferential treatment to any particular consumer, and I consider, therefore, that the same principle should be followed even in the case of the Electrical Undertaking at Hubli, in spite of the fact that the supply there is not given under a license. It is suggested, therefore, that the Exhibition be charged at the standard rate of 8 annas per unit, and Government may grant a certain amount to the Exhibition to compensate for the extra expenditure incurred in respect of electrical energy.....

20136/28052

energy. This, I think, would be the best way to help the Exhibition without committing any apparent irregularity under the Act.

Electrical Engineer to Govt.

P.

El. Br. P.W.D.

These papers may be returned to the El. Engr to Govt with a request to state the circumstances in which the exhibition was charged the reduced rate of annas 4 per unit as a single case in 1946 - vide para 2 of his note overleaf & whether

Submitted with ref. to the O.n. dt. the 1-6-49.

2. The Fourth K.I.H+A. Exhibition Hubli took supply of energy for exhibition for a period of 14 days from the Hubli El. Supply Undertaking. The rate chargeable for the energy consumed is annas 8 per unit as sanctioned in Govt. Resolution No. 5660/36, dt. the 23-10-44.

3. In 1946 the Exhibition had taken supply of energy from the Hubli El. Supply Undertaking for a period of 10 days. It was charged then at a concessional rate of annas 4 per unit, as a special case. The organisers of the exhibition claim the same concessional rate this time also. For reasons stated by the El Engr. in his note at p 5-6 ante, the organisers may

perhaps be informed that their request for the conversion cannot be granted. | A

4. With regard to the suggestion made by the Rl. Engr. in the concluding portion of his report, pp 5-6 it may be stated that Govt. need not take the initiative in the matter. | B

5. On receipt of orders necy. draft will be put up for appvl.

Re:- Hubli Electric Supply Undertaking:
Charges for meter cards --

It is reported by the Deputy Engineer in charge Hubli Electric Supply Undertaking that the meter cards supplied to the consumers by the undertaking are many times lost by many consumers, who request for the supply of new ones. These cards are necessary for recording the readings of meters and consumption of energy during a month, and they are in charge of the individual consumers. As the printed card costs nearly four annas including the labour charges for writing it up-to-date with details regarding months and dates, meter readings, etc., and in addition extra labour is involved in fixing it up in the premises of the consumer which may be situated in a distant locality, it seems proper that a charge of annas eight per card may be recovered from the consumer for the supply of a new card.

2. It is, therefore, requested that Government may be pleased to sanction the above rate at a very early date.

Submitted.

2/. It is presumed that the meter Cards are supplied to the Consumers by the Public Electric Supply Undertaking free of Charge at present and the El. Engr. now proposes to charge eight annas for the supply of a new card to the consumer in case the old one is lost. The Electrical Engr. to Govt. may be requested to confirm the above presumption and also to state the practice followed by the other private companies in the matter.

to El. Engr. 13.3.50

Below U.C.R. No.202/36/17048 dated the 13th March 1950, from Government in the Public Works Department.

No.EM.11/ 10 of 1950.

Bombay, 18th April 1950.

Returned with compliments.

2. The proposition made in para 2 of the Secretariat office note dated 10-3-1950 is correct. It is ascertained that most of the supply companies who have adopted the system of maintaining meter cards, have been supplying the new cards to replace the lost ones free of charge, except the Thana Electric Supply Co.Ltd., and the Tata Electricity Co.Ltd., which are charging Rs.2 per card.

3. As the cases of the loss of cards occur very frequently in Kutch, the proposed charge of annas eight per card, which is based on the present day cost of the card and printing charges for its printing etc., may be sanctioned as it will act as a measure to minimise the cases of negligence in the use of cards.

202/36/26204.

El. Pr (I) P.W.D.

Submitted with ref. to the O.M. dated the 10-3-'50.

2/. The presumption made in the O.M. (P.3) that the meter cards are supplied to the consumers by the Public El. Supply undertaking free of charge at present is correct. The El. Engr. has further stated (P.5) that most of the supply companies have been supplying the new cards to replace the lost one free of charge, except Poona Electric Supply Co. Ltd., and the Surat Electricity Co. Ltd. which are charging a fee of annas four and anna one respectively per card replaced.

3/. In the reasons stated in para 3 of (P.3) his report, the El. Engr. to Govt requests that the proposed charge of annas eight per card to replace the lost one may be sanctioned. He states that the proposed charge of annas eight per card is based on the present day cost of the card & it also includes charges for printing etc.

4/- In the circumstances it is for orders whether the El. Engr may be allowed to charge the proposed rate of annas eight per card to replace the lost one. in consultation with F.D.
